

Hunter Minser: President, VP of National Communications

Why are you interested in these positions??

I enjoy serving on the executive board and being in RHA in general and would like to do more and help to contribute to the group. I believe I can handle the workload of the President position and am excited to do it and be in that position. For the VPNC position, I already have experience and enjoyed it

How do you feel you would contribute to the Executive Board??

I feel like I have an understanding of the roles and a passion for the positions. I don't really do any other clubs or such so I feel I can devote a lot of time to this and can hope to make a difference

What experience have you had that makes you qualified for these positions??

I have been in RHA for 2 years now, with 1 year serving on the executive board as the VPNC. I was often in officer or leadership positions in high school and have a lot of experience and comfortability with being a leader and managing a group
